The board does not intend to hold a hearing in this matter. If any interested party wishes that a hearing be held, he or she must make the request in writing to the board. The request must be received in the board office no later than 15 days before the close of the written comment period.

With the exception of technical or grammatical changes, the full text of any modified proposal will be available for 15 days prior to its adoption from the person designated in this Notice as contact person and will be mailed to those persons who submit written or oral testimony related to this proposal or who have requested notification of any changes to the proposal.

Authority and Reference: Pursuant to the authority vested by Sections 1000–4(b) and 1000–10 of the Business and Professions Code (Chiropractic Initiative Act of California Stats. 1923 p. 1xxxviii), and to implement, interpret or make specific Sections 1000–4(b), and 1000–10(c) (Chiropractic Initiative Act of California Stats. 1923 p. 1xxxviii), and Penal Code Sections 11105 and 11105.2; the board is considering changes to Title 16, Division 4, of the California Code of Regulations as follows:

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The Chiropractic Initiative Act Section 1000–4(b) authorizes the board to adopt regulations as they may deem proper and necessary for the performance of its work, the effective enforcement and administration of this act, the establishment of educational requirements for license renewal, and the protection of the public.

This regulatory action adopts Article 7.5 and section 370, amends and renumbers section 355 to section 371, renumbers section 355.1 to section 372, and repeals

section 355.2, of Title 16 of the California Code of Regulations.

Currently license renewal and restoration requirements are listed under Article 6, Continuing Education. The board proposes separating license renewal requirements from the CE Article and placing them under a separate Article designated specifically for license renewal and restoration requirements for clarity. The purpose of the proposed changes to the text is to clarify annual license renewal and restoration requirements, license status definitions, and application forms which have been incorporated by reference. Section 355.2 was repealed and the content of this section is now contained in section 371(a) so that license renewal requirements for all licenses, whether active or inactive, can be found in one place. Section 370 was created so that all license renewal and restoration fees can be found in one place.

This regulatory action adopts sections 360 and 363.1, amends and renumbers sections 356, 356.5, 357, 358, and 360 to sections 361, 362, 363, 364, and 366 respectively, and renumbers section 359 to section 365.

The purpose of these additions, changes and amendments is to increase the amount of continuing education (CE) hours required by the board while providing a broader range of CE courses available for credit, including a distance learning option and attending a full board meeting; clarify CE course requirements for licensees and course providers; establish appropriate CE application and renewal fees and list them in one place within the regulations; and establish and clarify an appeal process for denial or withdrawal of CE providers and courses.

The board believes CE is a proactive approach that may prevent licensees from violating the board's laws and regulations, consequently saving licensees and the board the time and expenses associated with cases referred for administrative or disciplinary action and ultimately protecting the public from harm caused by chiropractors. The board is concerned about the high percentage rate of disciplinary actions pursued based on violations of board laws and regulations, negligence or incompetence and believes these numbers can be reduced through enhanced continuing education requirements. Statistics based on consumer complaints received by the board during July 1, 2009 through February 28, 2010 revealed approximately fifty percent (50%) of the violations alleged are related to areas which have been selected as mandatory course requirements under this proposal (ethics and law, history taking and physical examination procedures, chiropractic adjustive technique or chiropractic manipulation techniques, and proper and ethical billing and coding). At least half of the complaints alleging these types of violations are referred for administrative or disciplinary ac-

tion. This proposal will increase the current annual CE requirements from twelve (12) hours to twenty-four (24) hours; replace the three category system that is currently used for CE requirements with two categories (mandatory and other approved courses), including courses approved by the California Department of Industrial Relations, Division of Workers Compensation and any Healing Arts Board or Bureau within Division 2 of the Business and Professions Code; and specify the minimum amount of credit that may be earned by licensees for mandatory courses listed.

Lastly, the proposed requirements extend exemption or reduction of CE requirements for licensees who teach board approved CE courses, licensees who participate as examiners for part four of the National Board of Chiropractic Examiners, and licensees on active duty with a branch of the United States armed forces.

FISCAL IMPACT ESTIMATES

Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State:

The board will experience an increase in revenue due to the increase of CE requirements and application fees.

There will be no fiscal impact to other state agencies or federal funding to the state.

Non-discretionary Costs/Savings to Local Agencies:

None

Local Mandate:

None

Cost to Any Local Agency or School District for Which Government Code Sections 17500 through 17630 Requires Reimbursement:

None

Business Impact:

Businesses offering CE courses will incur fees associated with the application process; however, these fees will be offset by the increase in revenue generated by the wider range of courses they can provide. New fees proposed in these regulations include a \$75 application fee for new CE providers and a \$50 biennial renewal fee for providers who have previously been approved by the board. There are approximately 75 providers approved by the board who will incur a biennial renewal cost of \$50. On average, the board receives 8 provider applications per year who will incur a cost of \$75 each.

Other than the above, these regulations will not cause any significant, statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

Impact on Jobs/New Businesses:

The board has determined that this regulatory proposal will have an impact on the creation of jobs, businesses or expansion of businesses in California.

The board anticipates new businesses/jobs will be created by allowing the delivery of Continuing Education (CE) courses through various distance learning formats and expanding the list of approved CE providers. In addition, the course offerings have been significantly expanded which may result in the creation of new businesses/jobs as CE providers, instructors and administrative staff. The board is unable to determine the number of new businesses or jobs that will be created by the proposed regulations.

Cost Impact on Representative Private Person or Business:

Board of Chiropractic Examiners licensees who wish to hold an active chiropractic license will have to meet the CE requirements proposed in these regulations.

Currently there are approximately 13,900 doctors of chiropractic who will be required to complete the proposed CE requirements to renew their licenses. Requiring additional CE hours will cause these licensees to incur additional costs for registration. Licensees who choose to, may take up to one half of their CE requirements through distance learning, thereby avoiding costs associated with travelling to CE venues.

Additionally, the fee for reinstating a license from inactive to active status has been increased from \$25 to \$35. On average, 1,800 doctors of chiropractic have a license in an inactive status. Each year the board receives requests to return licenses to active status from 5% or less of inactive licensees. Assuming 90 inactive licensees request to return their license to active status, at an additional cost of \$10 to each licensee, the total estimated added cost to inactive licensees will be \$900 in addition to the costs stated above to fulfill their CE requirements.

Effect on Housing Costs: None

EFFECT ON SMALL BUSINESS

The board has determined that this regulatory action will have no significant effect on small businesses. Licensees may take up to one half of their CE requirements through distance learning, thereby avoiding costs associated with travelling to CE venues. The broader range of CE courses and providers in conjunction with the distance learning option will provide economic relief to chiropractic businesses.

CONSIDERATION OF ALTERNATIVES

The board must determine that no reasonable alternative that it considered or that has otherwise been identified and brought to its attention would either be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burden-

some to affected private persons than the proposal described in this Notice.

Any interested person may present statements in writing relevant to the above determinations to the address listed under Contact Person in this Notice.

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT

**California Environmental Protection Agency
Office of Environmental Health
Hazard Assessment
Notice to Interested Parties**

April 9, 2010

ANNOUNCEMENT OF FIRST PUBLIC COMMENT PERIOD AND WORKSHOP

Draft Technical Support Document on Proposed Public Health Goal for Methoxychlor in Drinking Water

The Office of Environmental Health Hazard Assessment (OEHHA) of the California Environmental Protection Agency is announcing the availability of a draft technical support document for a proposed Public Health Goal (PHG) for methoxychlor in drinking water. Methoxychlor is an organochlorine pesticide which was canceled in California in 1995. A PHG of 0.00009 mg/L or 0.09 parts per billion (ppb) is proposed for methoxychlor in drinking water. This risk assessment up-

dates the 1999 OEHHA PHG, based on new data on adverse effects of methoxychlor in animal studies. The earlier PHG is 30 ppb, as is the California Maximum Contaminant Level, set in 2003 in response to the 1999 PHG.

The current draft document is posted on the OEHHA web site at www.oehha.ca.gov. OEHHA is soliciting comments on the draft report during a 45-day comment period. The Office will also hold a public workshop on May 26, 2010 at the Elihu Harris Building, 1515 Clay Street, Oakland, 94612, Room 15, 10 a.m.–12 noon, or until business is concluded. OEHHA follows the requirements set forth in Health and Safety Code Sections 57003(a) and 116365 for conducting the workshop and receiving public input.

Written comments must be received at the OEHHA address below by 5:00 p.m. on May 26, 2010 to be considered during this document revision period. The workshop is provided to encourage a dialogue between OEHHA scientists and the public, to discuss the scientific basis of the proposed PHG, and to receive comments. Following the workshop, OEHHA will evaluate all the comments received, revise the document as appropriate, and make it available for another 30-day comment period. After any subsequent revisions, the final document will be posted on our Web site along with responses to the major comments from the public at the workshop and during the public review and scientific comment periods.

The PHG technical support documents provide information on the health effects of contaminants in drinking water. The PHG is a level of drinking water contaminant at which adverse health effects are not expected to occur from a lifetime of exposure. The California Safe Drinking Water Act of 1996¹ requires OEHHA to develop PHGs based exclusively on public health considerations.² PHGs published by OEHHA are considered by the California Department of Public Health in setting drinking water standards (Maximum Contaminant Levels, or MCLs).³

If you would like to receive further information on this announcement or have questions, please contact our office at (510) 622–3170 or the address below.

BOARD OF CHIROPRACTIC EXAMINERS

NOTICE OF DECISION NOT TO PROCEED WITH RULEMAKING ACTION

The Board of Chiropractic Examiners has decided not to proceed with its rulemaking action described in the Notice published in the California Regulatory Notice Register on May 22, 2009, OAL File #Z–2009–0512–06, concerning Title 16, sections 355, 355.1, 356, 356.5, 357, 358, 360 and 355.2.

DISAPPROVAL DECISION

CALIFORNIA FILM COMMISSION

State of California Office of Administrative Law

In re:

California Film Commission

Regulatory Action: Title 10 California Code of Regulations

Adopt Sections: 5500, 5501, 5502, 5503, 5504, 5505, 5506, 5507

DECISION OF DISAPPROVAL OF REGULATORY ACTION

Government Code Section 11349.3

OAL File No. 2010–0203–01 C

DECISION SUMMARY

On February 3, 2010, the California Film Commission (CFC) submitted to the Office of Administrative Law (OAL) the proposed adoption of sections 5500, 5501, 5502, 5503, 5504, 5505, 5506, and 5507 of Title 10 of the California Code of Regulations (CCR) regarding the California Film and Television Tax Credit Program (Program). The Program would establish the criteria and procedures for allocating tax credits to qualified taxpayers in the television and motion picture industry so as to encourage production of entertainment products within the State of California.

On March 18, 2010, OAL notified the CFC that OAL disapproved the proposed adopted regulations for failure to comply with specified standards of the California Administrative Procedure Act (APA). The reasons for the disapproval are summarized below:

- A. the proposed regulation fails to comply with the clarity standard of Government Code sections 11349.1(a)(3) and 11349(c); and
- B. the proposed regulation fails to comply with the consistency standard of Government Code sections 11349.1(a)(4) and 11349(d);

All APA issues must be resolved prior to OAL approval of any resubmission.
